

## How to get to the AWW

### From Frankfurt Airport

Please be aware that there are two separate train stations at Frankfurt Airport, the „Regionalbahnhof“ (regional train station), platform 1-3, and the „Fernbahnhof“ (long distance train station), platform 4-7. Regional trains heading towards Frankfurt Hauptbahnhof (Frankfurt Central Station) leave from both stations, but more regularly at the regional train station, platforms 1-3. From there you can take the S8, destination „Hanau“ to Frankfurt Central Station. With the S8, you will arrive at the underground station, then please follow the description from Frankfurt Central Station.

### From Frankfurt Central Station

Frankfurt Hauptbahnhof (Frankfurt Central Station) is divided into an above ground terminus station and an underground station, platform 101-104 serving regional services exclusively. Proceed to platform 104. You can find a station map of Frankfurt Central Station [here](#).

From there, you can take the S3 destination „Bad Soden“ or the S4 destination „Kronberg“ to get to Eschborn. Get off the train at „Eschborn Süd“ (Eschborn South).

The AWW is about ten minutes walking distance away from the S-Bahn station, see directions above. A taxi service is usually not available.

Please note that the side walk seems to end heading up Elisabethenstraße. At the end, turn right, follow the footwalk for ~ 50m, turn left and cross the parking lot. Your destination, Düsseldorf Straße 40, is on the right hand side.
